Profile Summary

- Recent Data Science student with strong skills in Python, Pandas, and machine learning. Eager to apply my knowledge to real-world data challenges.

Relevant Coursework

- | | | | |
|----------------------|---------------------|---------------------------|----------------------|
| • Python Programming | • Machine Learning | • Artificial Intelligence | • Data Visualization |
| • Statistics | • Data Manipulation | • Data Mining | • Data Analysis |

Experience

Datamites - Certified Data Science Intern

Nov 2024 – Present

- Built predictive ML models to improve accuracy and draw actionable insights.
- Used Pandas, NumPy, and Scikit-Learn for advanced data analysis.
- Designed visualizations with Matplotlib and Seaborn to present insights.
- Worked with SQL to manage databases, perform queries, extract insights, and optimize complex processes.
- Applied knowledge to real-world problems via Kaggle projects.

NullClass EdTech - Web Developer Intern

Sep 2024 - Nov 2024

- Built a responsive Stack Overflow-like site with React.js, JavaScript, HTML, and CSS.
- Implemented core functionalities, including user registration, login, and secure authentication mechanisms.
- Developed components for posting, editing, and deleting questions and answers, ensuring seamless user interaction.
- Conducted thorough testing to ensure cross-browser compatibility and optimal performance.

Projects

Fake News Detection Using NLP

- Developed a Fake News Detection system using NLP and machine learning to classify news as real or fake, evaluated multiple models, and deployed the best-performing model on a web interface.
- Tools Used:** Python, Scikit-learn, Pandas, NumPy, NLTK, TF-IDF, Flask, Jupyter Notebook, Git.

Stack Overflow Website

- Developed a web application inspired by Stack Overflow, providing a platform for users to ask, share, and engage in community-driven learning.
- Tools Used:** React.js, JavaScript, HTML, CSS, MongoDB.

Technical Skills

Analytical Tools: Excel, Power BI, Power Query, Tableau

Languages: Python, SQL, C++

Technologies/Frameworks: Pandas, NumPy, Scikit-Learn, Seavorn, Matplotlib, GitHub

Education

S.R.M Institute of Science and Technology (Final Semester)

June 2023 – June 2025

Master of Computer Applications, CGPA: 9.0/10.0

Extracurricular / Certifications

- | | |
|---|----------------------------------|
| • Accenture North America Data Analytics and Visualization Job Simulation | View Credentials |
| • HP LIFE - Data Science and Analytics | View Credentials |
| • Microsoft Excel Using AI Workshop | View Credentials |
